Edit Wildlife.wmv Rotate 3D Crop Effect Enhance Watermark

Upscale resolution

The image shows a side-by-side comparison of a video frame. The left side is labeled 'Before' and shows a person skydiving with a red and white striped parachute against a blue sky. The right side is labeled 'After' and shows the same scene but with significantly higher resolution and sharper details. A watermark 'Copyright © ZU www.zu.com' is visible across the center of the comparison images.

Choose the following options to enhance video quality.

- Upscale resolution
This function enables you to get superb video quality when you convert lower resolution video to higher resolution video.
- Optimize brightness and contrast
This function will automatically optimize the brightness and contrast to make your video more enjoyable.
- Remove video noise
This function can remove the dirt-like video noise and make your video cleaner.
- Video Deshaking
 - Reduce video shaking
This function can reduce shaking motion in videos. It can only be applied for videos with whole frame moves.
